CHRISTIAN COMPUTING

Costs for a Wordpress Website - 5/1/2018

Hosting Costs

- 12.50 - Monthly (12.50 per month, Yearly: 150.00)
- 35.70 - 3 Month (11.90 per month, Yearly: 142.80)
- 67.50 - 6 Month (11.25 per month, Yearly: 135.00)
- 120.00 - Yearly (10.00 per month, Yearly: 120)

Pricing includes database, backup of website and database, and also FTP access to your website.

Domain Name

.com, .net, & .org All \$15.00/year – Can be registered for up to 10 years at a time.

There are 650 different TLD types that I can register for you (.com is a TLD), many are more expensive than what is mentioned here. These three are the most common.

Wordpress setup & configuration (so it runs and you can design your website)

\$5 – I will download and install/configure the latest version

If website hosting and 1 .com domain name are both paid for on the year basis the up-front cost is \$140/first year (Monthly payment would come to \$170/year: 1st month – \$32.50, every other month - \$12.50)

Regardless of method of payment (2 invoices will be setup for the need, 1st is for the hosting, 2nd is for the domain name and setup cost)

Any questions services possible, please contact 602-427-5980 or webmaster@infochi.net
